E-Learning Courses

E2open Global Trade Academy e-Learning Courses are designed to address your company's training and compliance needs pertaining to global trade. They deliver significant value for an excellent return on investment (ROI):

- Up-to-date content
- Seasoned instructors with extensive subject matter expertise
- Engaging delivery
- An integrated learning management system (LMS)
- Robust reporting
- Mobile accessibility

Offered in a corporate annual subscription, our learning management program provides global trade compliance related training to employees around the world covering U.S., EU and other Customs regulations and export controls.

ACCREDITATION

Courses earn Global Trade Academy's CCLS™, DBS™ and EXCS™ continuing education credits as well as NCBFAA's CCS and CES credits.

COMPREHENSIVE

We have a growing library of global trade compliance topics. Updates and new courses are uploaded on an ongoing basis. All courses are composed of a lecture 30- to 60-minute lecture, an assessment (quiz), answer key, and course material as applicable.

CERTIFICATES AND TESTING

Participants must complete a quiz and achieve a score of 70% or better to complete the course. These quizzes are designed to reinforce the employees' learning and understanding of the topics. An answer key is provided for each quiz and when appropriate, an explanation for the correct answer is available. Certificates can be downloaded upon completion of a course and test.

CONVENIENT

All course are available through our LMS and accessible via a web browser. Employees are able to access content securely 24/7, anywhere, on any device.

For one price, your employees will have access to all of E2open Global Trade Academy online training and webinars for a 12-month period. Pricing packages vary with the number of individuals or seats you need.

On-Site Training Solutions for Your Company

EXPERTISE

Looking to build global trade expertise within your firm? Search no further than your own front door; bring our team of experts to your facility to lead your group through the intricacies of global trade transactions.

Our staff is composed of instructors with years of real-world experience and expertise. Our vast knowledge of the subjects specific to the international supply chain allows us to create training solutions that will ensure success for your company.

STRATEGIC APPROACH

Our account executives and expert instructors serve as strategic partners to collaborate with our clients to help ensure that business results are clearly defined and achieved.

FLEXIBILITY

Whether you need 5 or 500 employee trained and are looking for one day or one year's worth of training, we will create a flexible solution that delivers relevant and effective training.

STAYING COMPLIANT

Customs and Border Protection requires that all corporations engaged in import stay compliant with U.S. customs law. Part of that compliance is having effective staff training. Our on-site training and compliance will help you demonstrate reasonable care as required by Customs and Border Protection.

ON-SITE TRAINING SOLUTIONS

We offer several on-site training solutions:

Off-the-Shelf Tailored Training

Choose from our large selection of courses and webinars. Our account executives will work with you to create a training program that addresses your needs, and our instructors will tailor the delivery of content accordingly.

Complete Customization

We offer clients fully customized training to meet specific business needs and learning objectives. We use a systematic approach:

Step 1: Situation Analysis

We will discuss your specific needs and goals.

Step 2: Identify Topics and Content

Base on your needs, our team will identify appropriate topics and content.

Step 3: Develop Customized Content

Our instructors will develop customized content, examples and exercises specific to your organization.

Step 4: Trainer Prep

Our selected instructor will work with you to finalize deliverables.

Step 5: Delivery and Follow-Up

Our expert instructors will deliver the expected training followed by a quality assessment at the end of each training day.

Webinars On-Demand

Our subject matter experts will design a webinar for your specific corporate needs. You choose the topic and pick the time. This is a very convenient way to keep your staff up to date anywhere in the world with current issues and topics.
